

Linksys PAP2-NA Phone Adapter Configuration Instructions

Configuration for Linksys Phone Adapter PAP2-NA

A. Physical connection

1. Connect the Phone Adapter as illustrated

	Connect a touch-tone phone to the phone adapter
	Connect the internet source (eg. Router or ADSL modem) into the Ethernet port of the phone adapter
	Connect the power source

B. Enter the Configuration Menu

1. Look for IP Address of the phone adapter
 - Pick up the phone and type * * * * (star key x)
 - 4) Type 110#
 - The IP address would be read out
2. Type the IP address onto the address bar of Internet Explorer
3. Click "Admin Login" as illustrated

The screenshot shows the 'Linksys PAP2 Configuration - Microsoft Internet Explorer' window. The title bar includes standard menu options: File, Edit, View, Favorites, Tools, Help. Below the title bar is a toolbar with various icons. The main content area has a blue header bar with the 'LINKSYS' logo and 'Phone Adapter with 2 Ports for Voice-Over-IP' text, followed by 'PAP2'. A navigation bar below the header contains tabs: Info, System, User 1, User 2, and Admin Login (which is circled in red). The main body of the page is divided into sections: 'System Information', 'Product Information', 'System Status', and 'Line 1 Status'. Each section displays various system parameters and statistics.

C. System Settings

1. Click on "System" Tab and enter the information as illustrated. Click "Save Settings" when done.

The screenshot shows the "System" tab of the Linksys PMP2 Configuration interface. The "Optional Network Configuration" section is highlighted. The "Primary DNS" field contains "192.168.4.4" and the "Secondary DNS" field contains "192.231.203.132". Other fields include "Host Name" (sip1.bbpglobal.com), "Domain" (bbglobal.co), "Netmask" (255.255.255.0), and "Gateway" (192.168.4.1). Buttons at the bottom are "Save Settings" and "Cancel Settings".

D. SIP Settings

1. Click on "SIP" Tab and enter the information as illustrated. Click "Save Settings" when done.

The screenshot shows the "SIP" tab of the Linksys PMP2 Configuration interface. The "SIP Parameters" section is highlighted. The "RTP Port Min" field contains "16384" and the "RTP Port Max" field contains "19482". Other fields include "SIP1 RSC" (bbglobal.com:5190), "SIP3 RSC" (bbglobal.com:5190), "ST2 RSC" (bbglobal.com:5190), "ST4 RSC" (bbglobal.com:5190), "AVC Dynamic Payload" (101), "OT2616 Dynamic Payload" (98), "OT2640 Dynamic Payload" (96), and "OT28 Dynamic Payload" (99). Buttons at the bottom are "Save Settings" and "Cancel Settings".

E. Configure Line 1 or 2

1. Click on "Line 1" Tab and enter the information as illustrated. Click "Save Settings" when done.

The screenshot shows the configuration interface for a Linksys Phone Adapter. The top navigation bar includes tabs for Info, System, SIP, Regional, Line 1, Line 2, User 1, and User 2. The Line 1 tab is currently selected. The main area is titled "Phone Adapter with 2 Ports for Voice-Over-IP" and "PAP2".
SIP Settings: SIP Port is set to 5190.
Proxy and Registration: Proxy is set to sip1.bbpglobal.co, Register is yes, and Register Expires is 3600.
Subscriber Information: Display Name and User ID both have placeholder text "Enter Ext # here".
Supplementary Service Subscription: A large grid of service checkboxes, all of which are checked (set to yes).
Audio Configuration: Preferred Codec is set to G729a, and Silence Supp Enable is set to no. FAX CED Detect is enabled.
Buttons at the bottom: Save Settings and Cancel Settings.
